Managing Risks in Supply Chains

How to Build Reliable Collaboration in Logistics

Edited by
Wolfgang Kersten, Thorsten Blecker

With Contributions by
Boris Bemeleit, Thorsten Blecker, Christoph Bode, Mareike Böger, Fernando Ribeiro Dos Santos, Corinna Engelhardt-Nowitzki, Chris France, Axel Friedewald, Chia-Shing Han, Evi Hartmann, Michael Henke, Otthein Herzog, Phillip Hohrath, Gideon Horn, Shu-Chun Hung, Christopher Jahns, Navid Kalantari, Bernd Kaluza, Wolfgang Kersten, Omera Khan, Ilham Kissani, Reiner Kurzhals, Martin Lorenz, Heimo Losbichler, Alex Martin, Kieren Mayers, Marco Moder, Afshin Shariat Mohaimani, Poria Mohammadian, Nikolaus Müssigmann, Christian Nedeß, Lutz Neumann, Marisa Nobre, Lèo Tadeu Robles, Markus Rothböck, Jens Schumacher, Mischa Seiter, Hagen Späth, Ming-Chih Tsai, Lars Wagner, Stephan M. Wagner, Herwig Winkler, Lars Zschorn, Helmut E. Zsifkovits

Preface ........................................................................................................................................... V
Table of Content .......................................................................................................................... VII

## Theoretical Approaches for Supply Chain Risk Management

Supply Chain Risk Management: Development of a Theoretical and Empirical Framework .......................................................... 3
*Wolfgang Kersten, Mareike Böger, Philipp Hohrath, and Hagen Späth*

Integrated Performance - And Risk Management in Supply Chains - Basics and Methods ........................................................................ 19
*Herwig Winkler and Bernd Kaluza*

Complexity-Induced Supply Chain Risks – Interdependencies between Supply Chain Risk and Complexity Management ........................................ 37
*Corinna Engelhardt-Nowitzki and Helmut E. Zsifkovits*

Reliability Improvement in Supply Chain Design Under Demand and Supply Uncertainties ...................................................................... 57
*Ilham Kissani*

## Empirical Approaches for Supply Chain Risk Management

An Empirical Investigation into Supply Chain Vulnerability Experienced by German Firms ........................................................................ 79
*Stephan M. Wagner and Christoph Bode*

Enterprise and Supply Risk Management from the Perspective of Internal and External Auditors ...................................................................... 97
*Michael Henke, Reiner Kurzhals, and Christopher Jahns*

Risk Management in Supply Chains Behavioural Risks: The Underestimated Force .................................................................................. 110
*Mischa Seiter*

Evaluation of Transportation Network Reliability in Incidents .................. 123
*Afshin Shariat Mohaimani, Poria Mohammadian, and Navid Kalantari*

Managing Risk and Complexity in the South African Automotive Supply Chain in A Black Economic Empowerment (Bee) Environment: A Case Study ................................................................ 133
*Gideon Horn*
# Table of Content

## Analysing Risks

A Tool for Assessing Product Non-Compliance Risks in Supply Chains... 149  
*Alex Martin, Kieren Mayers, and Chris France*

Assessment of the Uncertainty of Delivery – Promises to Increase the  
Reliability of Production Networks......................................................... 163  
*Lars Zschorn*

Identification of Key Risk Factors for Logistics Outsourcing -  
A Case of Retailing Industry in Taiwan.................................................. 179  
*Ming-Chih Tsai, Shu-Chun Hung, and Chia-Shing Han*

## Managing Supply Chain Risks

Managing Supply Risks: A System Theory Approach to Supply Early  
Warning Systems...................................................................................... 195  
*Christopher Jahns, Evi Hartmann, and Marco Moder*

Mitigating Risk during Strategic Supply Network Modelling ............... 213  
*Nikolaus Müssigmann*

Risk Management for Agent Based Autonomous Logistic Objects........... 227  
*Boris Bemeleit, Martin Lorenz, Jens Schumacher, and Otthein Herzog*

Risk Management in Maritime Transportation Networks........................ 239  
*Christian Nedeß, Axel Friedewald, Lars Wagner, and Lutz Neumann*

Design Risk Management: A New Framework for Managing  
Supply Chain Risk.................................................................................... 253  
*Omera Khan*

The Marketing Mix in the Brazilian Maritime Transportation Market  
for Liner Shipping: A Multicase Study .................................................... 267  
*Fernando Ribeiro dos Santos, Léo Tadeu Robles, and Marisa Nobre*

Creating Shareholder Value through Value-Driven Supply Chain  
Management ............................................................................................. 281  
*Heimo Losbichler and Markus Rothboeck*
